

Project Description

An app for users to save snippets of pasted content and share to others, optionally protected with a password and time limit.

Home

This is the landing page. It shows the latest pastes on the site and the user's pastes if the user is logged in.

Paste

The page shows details of a paste and its comments, with the ability to edit and delete.

Login

The page is used to log in.

User Personas

Alice: a user who likes to have an app to save pastes and retrieve later.

Bob: a user who likes to share content to others.

Charlie: a user who likes to comment on things.

User Stories

- As Alice, I want to create an account and login / logout.
- As Alice, I want to save snippets of text for later retrieval.
- As Alice, I want to limit the access of pastes I created to myself.
- As Alice, I want the paste to self-destroy after a week.
- As Alice, I want to see all pastes I created earlier.
- As Alice, I want to edit pastes I created earlier.
- As Alice, I want to delete pastes I created earlier.
- As Bob, I want to share a snippet of text protected with a password.
- As Bob, I want to set a limited time for sharing a paste.
- As Bob, I want to browse the site and find interesting pastes.
- As Charlie, I want to comment on public pastes.
- As Charlie, I want to edit comments I posted earlier.
- As Charlie, I want to delete comments I posted earlier.
